

# *Parasenegalia*

## **Habitus and growth type**

Plant height [m]: **8.06**

Life span: **Perennial**

Life form: **Phanerophyte, Tree**

## **Flower**

Flowering period: **May-July**

## **Trophic mode**

Parasitism and mycoheterotrophy: **autotroph**

Carnivory: **non-carnivorous**

Symbiotic nitrogen fixation: **likely symbiosis with rhizobia**

## **Habitat and sociology**

Broad habitat

Occurrence in broad habitats: **Scrub**
