

# ***Pilosella dubia coll.***

## **Habitus and growth type**

Plant height [m]: **0.39**

Life span: **Perennial**

Life form: **Hemicryptophyte**

## **Trophic mode**

Parasitism and mycoheterotrophy: **autotroph**

Carnivory: **non-carnivorous**

Symbiotic nitrogen fixation: **no nitrogen-fixing symbionts**

## **Taxon origin**

Origin in Europe: **native**

## **Habitat and sociology**

Broad habitat

Occurrence in broad habitats: **Grassland (non-alpine, non-saline)**
