Tripleurospermum parviflorum

Habitus and growth type

Life span: **Annual**
Life form: **Therophyte**

Trophic mode

Parasitism and mycoheterotrophy: **autotroph**
Carnivory: **non-carnivorous**
Symbiotic nitrogen fixation: **no nitrogen-fixing symbionts**

Taxon origin

Origin in Europe: **native**

Habitat and sociology

EUNIS habitat

Diagnostic species of EUNIS habitats: **S67 Aralo-Caspian semi-desert**

Broad habitat

Occurrence in broad habitats: **Semi-desert**
