

# ***Elaeoselinum***

## **Habitus and growth type**

Plant height [m]: **0.95**

Life span: **Perennial**

Life form: **Hemicryptophyte**

## **Flower**

Flowering period: **May-October**

## **Trophic mode**

Carnivory: **non-carnivorous**

## **Taxon origin**

Origin in Europe: **native**

## **Ecology**

Environmental relationships

Substrate humidity relationship: **Dry**

Substrate reaction relationship: **Acidic, Alkaline**

Nutrient relationship: **Oligotrophic**

Salinity relationship: **Non-saline**

## **Habitat and sociology**

Broad habitat

Occurrence in broad habitats: **Coastal cliff, Grassland (non-alpine, non-saline),  
Scrub, Sparsely vegetated (incl. rock and scree)**
