

# *Allosorus fragilis*

## **Fruit, seed and dispersal**

Dispersal mode: **Anemochory**

Dispersal distance class: **5**

## **Trophic mode**

Parasitism and mycoheterotrophy: **autotroph**

Carnivory: **non-carnivorous**

Symbiotic nitrogen fixation: **no nitrogen-fixing symbionts**

## **Habitat and sociology**

EUNIS habitat

Diagnostic species of EUNIS habitats: [T3E Macaronesian Juniperus forest](#)

Broad habitat

Occurrence in broad habitats: **Forest**
